ADVENTURE SAFARIS

Trust in the Lord with all your heart and lean not on your own understanding. In all your ways acknowledge Him and he will direct your path. Prov.3:5-6

1. Thank you for your prayers. God has directed our paths. We feel very confident that the Cedar Ridge Ranch near Bowman, ND will work for our program (SW corner of state). Two Triceratops have been taken off the land in the past 20 years. We have a duckbill dinosaur site available plus two others that look good. The owner is a very kind and generous man and is excited about our coming. Pray now that we will get everything ready including the workbook, equipment, and 15 registrants per week in order to meet our budget.

2. Joe Taylor, our bone specialist, needs our prayers. Due to a broken leg, cold weather, and a kind heart he is way behind on his house rent. He tried to help out at another ranch and took some loss in income because of it. A College has expressed interest in having him mold a life size mammoth. Pray that God's will for him will be done, and he will be able to catch up on bills very soon.

3. Thank the Lord, we have had our first registration down payment. We are praying that nine more will send their payment in April.

4. Pray we can expand our BASICS clubs to a family we sponsored several years ago. Their mother had okayed a Bible Study before they moved to the Eden Prairie area.

5. John has started his computer classes. We thank God for the grant money that opened these doors.

For since the creation of the world God's invisible qualities... have been clearly seen... so that men are without excuse. Romans 1:20

CERC

In the April 1991 issue of this publication an announcement was made asking for donations to start a lending library. The library initially received several creation videos and about \$200.00.

The library operated out of the home of its founder until July, 1995. Creation books, and tapes were sent to states as far away as Washington, Pennsylvania and Texas. Families, Churches, Prisons, Schools, Pastors and a Naval Hospital all made use of our resources. To expand the exposure of creation materials, the library was turned over to the Christian Educational Resource Center (CERC) located in Roseville.

Since CERC has resources in other subject areas, many people who never give the creation / evolution issue any thought are now exposed to Creation Science materials.

Of 248 specific resources that have been checked out more than five times, 122 are items from the TCCSA lending library. That means almost 50% of the frequently used resources are Creation Science materials. Items of greatest interest are "The Young Age of the Earth" video (19 times), "The Great Dinosaur Mystery" (15 times) and 3 other items 14 times each. Multiple copies of "Mount St. Helen's" have been checked out a total of 32 times.

CERC needs additional materials and funds to purchase more technically advanced resources. Old Creation Science magazines and Creation Conference books are also needed to round out the library. If you have materials or funds to donate to CERC please call.
