Real Roots

Tuesday, July 15, 1997, 7:30 p.m. Totino Fine Arts Center, Rm. 115 Northwestern College, Roseville

The video *REAL ROOTS* is presented by John Mackay, director of Creation Research from Australia. (It is a sequel to his previous video entitled *THE ORIGIN OF RACES.*) John has live interviews with people from different ethnic backgrounds who describe their origins without an evolution perspective. The discussion of the racial tree of man is stranger than fiction and better than an Alex Haley presentation. Schools that have shown this video have had a positive reaction to the material.

ADVENTURE SAFARIS

There are some openings left for this summers fossil digs without any penalty for late registration . We have selected a 12,000 acre ranch in the Southwest corner of North Dakota for this summer's dig, near the towns of Bowman and Rhame. The ranch is in the Hell Creek Formation located near the Little Missouri River. Two complete Triceratops have been removed from the ranch, so it is in a prime area for digging. Our plan is to have at least three sites open for digging; one of which is identified as a duckbill site. An ideal camping site has been selected with electricity and water nearby.

The town of Bowman, a fast 21 miles to the east, offers several motels and an excellent museum with a dinosaur section. The Black Hills are about three hours south for those who want to extend their vacation. Theodore Roosevelt National Park and a great museum in Dickinson, ND are each about 1 1/2 hours away.

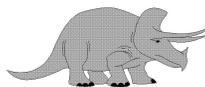

You can look forward to fellowship with other believers this summer and to the rewarding experience of unearthing evidence of dinosaurs laid down by the Flood. Please contact us as soon as possible for reservations and information.

We have scheduled January 31 and February 1, 1998 for next year's Science Fair at HAR MAR MALL. They want us back since there was positive feedback and because business was up. This is a wonderful opportunity to extend the Creation message to the community.

“For since the creation of the world God’s invisible qualities... have been clearly seen... so that men are without excuse.”

Summer Time Quiz

We at TCCSA take the month of August off to spend time with our families. As you spend time with your loved ones don't take a vacation from God. If you find you have an extra Tuesday evening without anything to do, here is something to work on. The following paragraph has 16 names of Bible books for you to find.

How well do you know the Bible or think you know the Bible? We shall see! Only time will tell!! Enjoy! I once made a remark about the hidden books of the Bible. It was a lulu, kept people looking so hard for facts...and for others it was a revelation. Some were in a jam, especially since the names of the books were not capitalized. The truth finally struck home to numbers of readers. To others it was a real job. We want it to be a most fascinating few moments for you. Yes, there will be some really easy ones to spot. Others will require judges to help them. I will quickly admit, it usually takes a minister to find one of them, and there will be loud lamentations when it is found. A little lady says she brews a cup of tea so she can concentrate better. See how well you can compete. Relax now for there really are sixteen names of Books of the Bible in this paragraph.

No August meeting or newsletter.

Sept. 16 **Bob Laing**, Nature of the Atom. Bob has some observations that should intrigue you.

Oct. 21 **Dr. Don Patton**, Fossil hunt in Peru.

Nov. 18 **Dr. Randy Guliuzza M.D.**

Good-bye, God Bless

Dr. Walter Lang, a true pioneer in the Creation movement, will be with us possibly for the last time at our July 15 meeting. He and his wife will be moving to Seattle later this summer to be near their family.

We at TCCSA will miss Walt who has been a long time board member and friend. Make a special effort to be at the July meeting to wish him well. Please keep them in your prayers during this time of transition.

Upcoming Metropolitan Creation Science Association Events

The **Metropolitan Creation Science Association** holds its meetings at Redeemer Lutheran Church, 1301 E. County Rd. 42, Burnsville, starting at 7:30 p.m. For more information please call (612) 861-5288.
