STARLAB? NOAH'S PARK?

Tuesday, April 21, 1998, 7:30 p.m. Grace Church Roseville, 1310 County Road B2

What in the world is STARLAB and Noah's Park, and what do they have in common?

Tom Baird has for the past 18 years pastored Gilgal Baptist Church in Christmas, Florida. With an interest in astronomy and a fascination with dinosaurs, Pastor Baird has kept an eye on the sky and the other on the ground. As an outreach for the church he started a portable museum called Noah's Park and Planetarium. He presents some of his programs in a plastic dome called STARLAB.

Using this unique tool, he is able to present several Biblical based programs to schools and organizations at any age level. Pastor Baird has recently been named a lecturer for Answers in Genesis, founded by Ken Ham, located in Florence, KY.

The topic for our 7:30 meeting will be a presentation on Biblical Astronomy. In addition the STARLAB will be set up at Grace Church with several programs offered throughout the day on Tuesday, April 21. Prior to our regular meeting, there will be two special programs at 5:45 and 6:15 PM in the STARLAB. STARLAB seating is limited to approximately 80 people (floor seating only), and the cost is \$3.00 per person (\$10 per family). Reservations must be made by April 14 by calling 559-6616, and is first come, first served. Tom Baird is a speaker that people of all ages will appreciate, and we strongly encourage you to bring the kids to this one.

SECRET MOTIVATION TECHNIQUE

---especially for Home Schoolers---

by Edy T. Johnson

Is your child wild about science, but needs a push in other subjects? Use science (or the subject of his choice) as a reward. Just because the public school doesn't offer biology or chemistry in grade school doesn't mean your child prodigy has to wait. Tell your child he can pursue all the science study his heart desires as soon as he's mastered his spelling, history, or what have you.

It worked for us! Our mom never had to push us to practice the piano. Her reprimand to us was "Get off the piano until your chores are finished!" consequently piano practice was sheer play for us, rather than the work it was for other children!

ICC Pittsburg Conference

Are you planning to attend the conference in Pittsburg PA on August 3-8 this year? TCCSA and Adventure Safaris plans to have tables there with information on our activities. We are interested in car pooling with others heading that way. In addition we need people to spend time in the booth, answering questions and getting information about people interested in the Dino Digs and meetings in the Twin City area. Please contact Bob Helfinstine at his address or phone number listed for more information.

Are you Ready to Dig Into History? Many have shown interest in our dinosaur dig in the picturesque Badlands of North Dakota. We dug at a triceratop's, hadrosaurus', and turtle site. Besides the dino skeletons, there were alligator, dromeosaurus, and sting ray teeth found. It was a great success and we wanted to let you know the dates for this summer's dig season.

This is a vacation trip of a life time. Mrs. Engholm, who has traveled all over the world says: "This was the best trip I have ever been on. Other trips I would only watch. Here I could participate and actually dig the dinosaur bones. The Christian fellowship and Biblical teaching made this a special vacation."

We send out a 40 page workbook before the dig so you can practice dig techniques in your back yard. The dinosaur dig is an opportunity for the whole family to not only dig dinosaurs, but have good Christian fellowship and activities, too. Free time in the afternoon can be used for horseback riding at the ranch, swimming and museum viewing in town, arrowhead hunting, games and bone molding, and new this year, training in rock climbing.

We are running five, 5 day camps again this summer July 6th - Aug. 7th. We need to know if you are interested so we can plan for materials, teachers, and dig sites. It will once again be at Willard Swanke's, Cedar Ridge Ranch, near Bowman, in the South West corner of North Dakota. Both electricity and water are available at the ranch camp site. The cost is \$700 per family, \$600 for individuals. This covers all tools and teaching materials, guide service, ranch rental, electricity and water. You provide your own tent or trailer, and food. Most secular digs start at \$700 per person and children can not dig. Motels are available in Bowman 25 miles away.

Call for information about our one day digs and trips here in the Twin City area starting in May.
