Evolution: The Incredible Hoax

7:30 PM, January 20, 2004, Room 115, Totino Building, Northwestern College

Our first program for 2004 is geared toward the whole family, this program will show that evolutionism is unscientific. It answers the question, "Why do REAL scientists say NO to evolution?" Evidence is presented for: A young earth, Coexistence of humans and dinosaurs, Noah's Ark - size, capacity, construction, Search for the Ark, recent sightings, The Flood and the demise of the dinosaurs, Dinosaur-like creatures alive and well today, The pre-flood world of giant animals, plants and humans.

Eugene Sattler is an educator and camp director. Since retirement from the classroom he has devoted full time to lecturing on Creation vs. Evolution. His topics cover a wide range of areas in which he has done research. His latest hobby is building scale models of Noah's Ark.

Mr. Sattler holds Bachelor of Science and Master of Arts degrees, he has done graduate studies in geology, geography and anthropology at Michigan State University. He is a member of the Creation Research Society, and serves on the board of directors of the Genesis Institute and the Chronology-History Research Institute.

Our speaker has traveled extensively throughout Canada, Alaska and the Western states studying geology, fossils and evidence of the Flood. He has lectured for the past 35 years on Creation vs. Evolution and related topics. He stresses the importance of Biblical creation as the foundation for a good education.

All meetings are free and open to the public. A free-will offering will be taken.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that

Primordial Soup

By Daniel Nuckols

An evolutionist is really a full time janitor...

Adventure Safaris

Plan to participate in the science fair February 21-22 at Har Mar Mall. A great learning experience for students presenting a Christian worldview the secular community rarely sees. See www.tccsa.tc for ideas & rules.

Adventure Safaris presents the Creator and His designs and laws to homeschool coops. Contact us if you are interested in receiving an excellent science education for your students. As a nonprofit organization, we are supported by our school work as well as by interested churches and individuals. All gifts made out to TCCSA are tax deductible.

John Nuckols

jpnuckols@usfamily.net

Coming up. . .

Feb. 17 - Dr. Chris Macosko - The Origin of Life: By Chance or by Design?

Mar. 16 - Tom Willis

Check www.tccsa.tc for other activities in our area.

Election of TCCSA Officers

This month members will elect officers to serve for two years. Only current paid members may vote. You may join or renew your membership prior to the election. See other side for membership information. The Nominating Committee has provided the following slate.

President - Dave Johnson

Secretary - Julie Von Vett

Treasurer - Byron Twiss

Members may be nominated from the floor.
