Vol. 31, No. 4

The Relevance of Creation: Why America is Losing its Christian Culture

7:30 PM, April 19, 2005, Nazareth Hall Chapel Northwestern College

Last September Bruce Malone spoke on Evidence of a Young Earth, his presentation was very well received so we have invited him back.

Did you know America has more Churches, Bible Colleges, Seminaries, Christian activities and resources than any other country on earth? Why then are we on the verge of losing our Christian culture? Why is our culture increasingly rejecting its Christian foundation? What caused the Christian church to lose its moral authority? How can we make Jesus more relevant today? What can the Church do to restore America's moral compass?

Bruce is the author of *By His Word*, a book that could wake up American churches before it's too late. If we continue down the path we are following the open persecution of Biblical Christianity is just around the next dark corner. His books will be available on the book table. Bruce is married with four children, one is attending St. Paul Bible College here in the Twin Cities

All meetings are free and open to the public. A free-will offering will be taken.

Have you considered ...

the frog. In the early spring, we hear the all too familiar ribits and croaks. Have you considered how they survived the winter? It has been found that a frog's body makes glycerol which acts like an antifreeze. This antifreeze causes the ice crystals forming in the blood to freeze in a way that does not destroy the cell. The frog is able to survive **even** when frozen. If frogs had developed this antifreeze in a step-by-step fashion, they would not have survived. The Master Designer had to set it up correctly from the very beginning ...stop and consider God's wonders. Job 37:14

(Adapted from *Creation Moments*, reprinted in *A Closer Look at the Evidence*, Kleis)

CREATIONWISE

Adventure Safaris

It's not too late to plan your summer activities and we have a duzy. We will be back in the Lemon South Dakota area again with our dinosaur dig. Unlike most other digs we let everyone try their hand at finding the really big one that got away. We offer one price for the whole family that won't break your budget. This is one vacation that you will remember for years to come and maybe it will become your annual experience. It has happened to others, why not you? Details and dates on our web site.

The writing contest reports are in and judges are working to select the very best ones. We hope everyone who wanted to participate was able to get their entries in this year. If you didn't quite make it this year you can be thinking and working toward a super report for next year.

Adventure Safaris presents the Creator, His designs and laws to homeschool coops. Contact us if you are interested in receiving an excellent science education for your students. As a nonprofit organization, we are supported by our school work as well as by interested churches and individuals. All gifts made out to TCCSA are tax deductible. Designate what your gift is for.
