

Revealing the Fingerprints Of God

7:30 PM, November 20, 2007, Room 116, Totino Fine Arts Center, Northwestern College

A former evolutionist and skeptic will present evidence for the existence of God in the natural world and in history. Can this evidence be persuasive to the professional community? Are they of any help to lead unbelievers to consider faith in Jesus Christ? The focus of this presentation is on a strategy for integrating these fingerprints of God in the service of evangelism.

Dr. Don Bierle holds M.A. and Ph.D. degrees in the life sciences and an M.A. in New Testament Studies. An academic dean and college professor for nearly 25 years, he is skilled at communicating complex subjects in a clear, original, and fascinating way. Dr. Bierle is an author, speaker of international reputation and president of Faith Studies International. You can find more information at www.faithsearch.org.

Dr. Bierle has been very well received at previous talks to TCCSA and we expect you will find him extremely interesting and informative. He is able to communicate to young and old alike. Bring the whole family for a fascinating evening you won't soon forget.

All meetings are free and open to the public, an offering will be accepted.

The CRC Mail-order Creation Library?

The initial offering of the Creation Lending Library went well. 35 of our new Answers in Genesis DVDs were loaned out. We will again offer DVDs for loan at the November meeting.

Remember the Creation Lending Library is currently only lending DVDs through the mail but we have hundreds of other excellent creation resources that can be checked out at the Christian Resource Center (CRC - home of the Creation Lending Library).

The CRC is located at Grace Church Roseville at Hamline and County Rd. B2 and is open Tuesdays 12:00 – 3:00 p.m. and Wednesdays 12:30 – 3:00 p.m. and 6:30 – 8:15 p.m. We are currently looking for people who could be the volunteer librarian on **one Saturday a month** from 10:00 a.m. – 1:00 p.m. If you are interested please contact Jeannene Forshee at jcforshee@usfamily.net. Volunteers to help with other jobs are also needed.

Coming Up . . .

December—No meeting
January 21—Julie Von Vett—Mammoths, Ice Age
February 16—K-12 Science Fair at Har Mar Mall
February 19—Bruce Simat—Mad Cow Disease
For updates go to www.tccsa.tc

Have you considered...

...the lowly ocean sponge. It makes fiber optics. The thin glass fibers of the sponge are able to transmit light even better than our man-made optical fibers. While man-made fibers are made at high temperatures and are very brittle; the sponge's fiber optics are grown at low temperatures and are so flexible they can be tied in knots without breaking! Scientists are baffled by this design and have not been able to duplicate it. Doesn't it strike you that something that is more advanced than what scientists can create, could not have happened by chance?

... stop and consider God's wonders. Job 37:14

Adventure Safaris

By Daniel Nuckols

We have wonderful speakers scheduled for the upcoming months. We hope you will be able to attend. Let us know if you are moving or your e-mail address changes. That way you will know about the programs and activities.

TCCSA's STATEMENT OF BELIEF
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Official Notice:
 The January 2008 meeting will include an election for TCCSA officers and board members. Only current paid members are eligible to vote. Nominations may be made from the floor.
