Did the Sun Really Stand Still?

Tuesday, January 19, 7:30, Totino Rm. F2128, Univ. of Northwestern, 3003 N Snelling, Roseville

We who read and believe the Bible when it states that the sun stood still, rarely think about the full implications. Skeptics dismiss it all as myth. But there is both archeological and geological evidence for many post flood catastrophes that fit with the Biblical record of miraculous changes in the usual order of nature.

Dr. Ross Olson not only introduces our speakers and tells Ole & Lena jokes, he also defends the Bible. He is the TCCSA web master and debates skeptics on issues that we care about.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...the northern lights or aurora borealis. These shimmering bands or waving curtains of greens and reds periodically appear in the dark northern evening sky. This beauty is just a reminder of God's protection. You see, an aurora is radiation made visible. It all begins on the sun's surface where protons and electrons are boiled off the sun's surface. These dangerous high speed particles race through space reaching earth in a matter of hours. Instead of hitting earth directly, the earth's magnetic field sweeps the particles into the polar regions. This radiation hits the upper atmosphere causing the air to glow with energy. Without this magnetic field, we would not survive! God placed this special field around us to protect us from these dangerous incoming particles. The auroras just remind us of God's protection. So the next time, you see these shimmering bands of green and red.

...stop and consider God's wonders

Astronomy and the Bible by Donald DeYoung (p. 54-55)

Science Fair West of the Metro

Elim Mission Church in Cokato, March 18th, 1:00-3:30. Open to all ages, projects will be arranged by age group and judged. \$10 entry fee (per student), recycled back into program.

Questions, please contact Dean at (763) 658-4205 or chellyoung405@gmail.com

Welcome to TCCSA 2016

Coming Up (Lord Willing) . . .

Jan. 19—Ross Olson, Did the Sun really stand still?

Feb. 16—Robert Stadler, Genetic Evidence for Evolution

Mar. 15—Steve Law, Patterns of Evidence—Exodus Pt.2.

April 18—Julie Von Vett—Birds

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
