The Stairway to Life: An Origin-of-Life Reality Check

Tuesday November 17, 2020, This is a live Zoom meeting, a recording will be on YouTube later.

Rob Stadler, author of *The Scientific Approach to Evolution*, will provide an overview of his new book: *The Stairway to Life: An Origin-of-Life Reality Check*.

The debate over the origin of first life rages on. The evidence is clear - life requires many features that cannot arise naturally. Yet a growing minority claim that life could have started naturally. We will review the evidence and the flawed arguments that atheists make.

For a link to the program on November 17, email Dave Johnson at david-johnson@usfamily.net. A link will be sent out on the 16th or the 17 prior to the meeting at 7:30 PM.

Have You Considered ...

... human mutations? Individually, every time a cell divides, new mutations occur. For every year you live, mutations are accumulating. On average a typical 15-year-old has 6,300 mutations while a 60-year-old has about 40,000 mutations. We are mutating to death with an upper limit of 70 to 120 years.

On a population level, we are also degenerating. Every generation has accumulated more mutations than the last. Every person has maybe 100 brand new mutations or spelling errors in their genome at birth. We accumulate about 100 new mutations/person/generation. Fortunately, most of these mutations have a very small effect. Yet, as one population geneticists has stated, "We are inferior to cavemen". Our fitness is deteriorating! Darwin had it wrong, we are not going up but going down!

Viruses mutate quickly, the virus H1N1 of the Spanish Flu of 1918 mutated itself to death; by 2009 the Spanish Flu virus went extinct (except for those in freezers).

Our genomes from humans to viruses are degenerating. Genetic entropy is real! As humans we are only about 200 to 300 generations away from Adam and Eve.

Why is this happening? SIN. Adam and Eve ate the forbidden fruit and we have been deteriorating ever since. Evolutionists' idea that humans have been evolving for millions of years does not bear out in science. With evolution's deep time, the human race would have already gone extinct.

Sin and its results can be depressing but it can also point us to the Savior. We do live forever...some place, either with the Savior or Hell.

"For God so loved the world that He sent His only begotten son that whosoever believe in Him shall have eternal life." ~ John 3:16.

Dr. John Sanford, "The Truth about Genetics", Origins Truth Conference, 10/3/202

Unusual difficulties in our nation and state continue. Please keep our leaders in prayer that they will have God's wisdom as they make decisions. Also pray for those experiencing hardships and health problems at this time. Prayer unlocks more power than we can even imagine.

Coming Up (Lord Willing)

Jan. 19—Brian Lauer, Science Uprising
Feb. 16—Julie Von Vett, The Incredible World of Plants
Mar. 16—Don Slinger, When Did Cavemen Live ... and More.
April 20—TBD

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
